About Heavy Fire: Red Shadow

Set in the not-so-distant future, tension between a bold North Korea and the United States have been stretched beyond their breaking point.

In *Heavy Fire: Red Shadow* players lace themselves up in the tattered combat boots of Sgt. Will, who narrowly survived a North Korean missile attack on Guam designed to knock out its defenses, and now finds himself almost single-handedly trying to repulse a large-scale North Korean raid.

Step onto the unforgiving battlefield, establish a beachhead, and holdfast behind a turret-mounted machine gun. A brutal and unceasing onslaught of enemy forces will attempt to flank and eliminate Sgt. Will from every angle as he and a few surviving comrades rain hell upon anything that crosses their sights.

- **360° White-knuckle Action!** Use a devastatingly powerful turret-mounted machine gun and rocket launcher combo to mow down enemies in 360° across eight stages in Campaign Mode, or fight non-stop in Endless Mode.
- **Call in Support!** Call in supply drops and support from elite infantry troops, fighter aircraft, attack helicopters, and more.
- **Get Promoted and Powered Up!** With more than 30 unlockable Field Promotions, players earn power-ups to upgrade and customize their machine gun, rocket launcher, health, and support skills.

- **The Right Tools for the Job!** Experience a new level of exciting gameplay with Mixer support on Xbox One, and the immersion of PS VR support on PS4™ (included free in the physical edition of *Heavy Fire: Red Shadow*, available exclusively at Walmart).
