

New Home Sweet Home Avatars Now Available on the PlayStation®Store in North America and Europe

SAN FRANCISCO – August 15, 2019 – Video game publisher and developer Mastiff today announced that four new avatars for the Thai stealth-horror game, *Home Sweet Home*, are now available to download from the PlayStation®Store in North America and Europe.

As Mastiff's way of saying "thank you" to their fans and the gaming community, all four *Home Sweet Home* avatars are available to download for FREE!

Replace that old avatar with the vengeful, boxcutter-wielding beauty, [Belle](#), the grotesque, towering [Preta](#), the terrifying and highly mysterious [Dancer](#), or the spine-chilling [Black Ghost](#).

About Home Sweet Home

The first in a series of terrifying first-person stealth horror games, *Home Sweet Home* throws players into a dark and twisted labyrinth, where a miasma of fear fills the air, dread bleeds through cracks in the ceiling and seeps down through broken floorboards, and anxiety grows stronger with every step.

After a long night filled with mourning and sorrow over the recent disappearance of his wife, Tim awakens to find himself in a strange, dilapidated building instead of the comfort of his own home. Confused, he must avoid deadly spirits, solve perplexing puzzles, and unveil sinister secrets while desperately searching for his wife and a way out.

There is a dark secret casting a shadow over this domain...and without question, it's no longer the happy home that it once was.
